

## Integration Services

TCCO has an excellent track record in developing business critical applications with UNIFACE. We use the power of UNIFACE to connect/combine data from several databases. We can deliver information needed in the format of your choice. For example: JSON, CSV, SVG, XML, PDF. We have a tremendous amount of experience in integrating UNIFACE applications with commercial of the shelf software/services. [We can deliver transformations from any XML source to the format of your requirements.](#)

### An overview:

- ✓ TCCO is responsible for the design of the SRIF interface. The interface is designed for exchanging requirements between several requirement management tools. For example, using [SRIF](#) we export data from existing documents into [TopTeam](#).
- ✓ For several UNIFACE applications TCCO realized an interface with the [SEPA](#) payment system.
- ✓ TCCO realized data exchanges with governmental organizations delivering data about transport and trades ([CBS](#)) and financial transactions ([Dodd Frank](#)).

TCCO integrates UNIFACE applications, connected or disconnected, with the WEB. Connected using UNIFACE server pages, disconnected generating PHP/HTML5 forms from UNIFACE. The PHP/HTML5 forms hosted anywhere on the web deliver data through MAIL into an UNIFACE application.

- ✓ TCCO integrates Content Management Systems (CMS) e.g. [Joomla/Wordpress](#) with UNIFACE.
- ✓ TCCO integrates [SOLR Lucene](#) (Search Engine) with UNIFACE
- ✓ TCCO is the designer/developer of TCCO-DOCX. TCCO-DOCX transforms UNIFACE data into [PDF documents](#) in the style of your choice.
- ✓ TCCO realizes modern [responsive web applications](#) on the WEB using state of the art technology. E.g. HTML5, CSS3, Bootstrap, JQuery, UNIFACE.

### TCCO integration services
